

Nunthorpe Squash Club – Court Maintenance Update

The committee along with members feedback recently acknowledged that our courts needed some minor maintenance.

The committee reviewed the situation and took the decision to not just patch up and mend the current issues but decided to totally overhaul 2 of the courts.

We engaged with Court Craft one of the leading companies in the UK to provide a quote for works required.

They produced a risk assessment and method statement for us to review.

The works that many of you will have seen completely renews all wall playing surfaces by removing all the plaster and machine sands all the other playing surfaces with complete redecoration.

We accept that disruption to court availability has been an inconvenience, but we chose October as the best time to coordinate these works as historically with school holidays activity within club decreases slightly.

Whilst courts 3 + 4 are being renewed Courtcraft have taken all precautions to limit the amount of dust and debris generated.

On behalf of the committee, we would like to thank all members for their cooperation whilst these works are being completed.

Going forward we will be identifying a suitable time window for works to improve and overhaul courts one and 2 in due course.

The investment is a considerable one but one that is needed and I'm sure you can appreciate these are necessary for Nunthorpe Squash Club to continue to provide excellent facilities for current and new members well into the future.

We would like to thank all the members for their continued support with special thanks to the committee for releasing funds and in particular Membership secretary Martin Bradley for coordinating this major project with Court craft.

COURT CRAFT

Courtcraft is the market leader in the design, installation & maintenance of squash courts and sports flooring systems in the UK. Proudly based in Manchester, they offer nationwide coverage, along with competitive prices. They work with architects, specifiers, main contractors & clients direct, to offer the correct solution to your needs.
